The Akamai Internship Program is a unique program that combines coursework, a project in high tech, and communication skill building. Through the Akamai Program, college students are placed at a company or observatory on Maui, Hawaii Island, or in Pasadena, California. Each student completes a project with guidance and mentoring by an engineer or scientist. The Akamai Internship Program has been in place for more than ten years, with hundreds of trained students completing the program.

Participants are required to complete the entire eight week program and the program requires full-time commitment. Housing, airfare and other support services also available.

Applications must be U.S. Citizens or Permanent Residents, be at least 18 years old, and a resident of Hawaii.

FINANCIAL SUPPORT
Akamai Interns earn stipend payments totaling $3200.00 for an 8-week, full-time commitment. Housing, airfare and other support services also available.

EXPECTATIONS
- Participants are required to complete the entire eight week program and the program requires full-time commitment.
- Participants must attend all scheduled activities, attend weekly meetings and complete weekly assignments.
- Participants receive communication training and coaching, and give an oral presentation at the end of the summer.
